**Section 1 – Registrant’s Business and Operations****Item 1.01 Entry into a Material Definitive Agreement.**

On July 12, 2012, Silver Falcon Mining, Inc. (the “Registrant”) entered into a Securities Purchase Agreement (the “Purchase Agreement”) with JMJ Financial (“JMJ”). Under the Purchase Agreement, the Registrant issued JMJ a Secured Convertible Promissory Note (the “Note”) in the original principal amount of \$525,000. The Note bears a one-time interest charge of 5%. All principle and accrued interest is due and payable under the Note on January 12, 2014. The Note is convertible into shares of Class A Common Stock (the “Common Stock”) of the Registrant at any time at the option of the holder. The conversion price is equal to 80% of the average of the three lowest daily average trading prices of the Common Stock during the 15 trading days preceding any conversion. The

Registrant received gross proceeds of \$500,000, which was net of original issue discount of \$25,000.

The Registrant may not prepay any part of the Note without the prior consent of JMJ. The Note is subject to standard default provisions.

The Registrant also issued JMJ a warrant to purchase 16,666,667 shares of Common Stock for \$0.03 per share at any time until July 12, 2016 (the "Warrant"). The Warrant must be exercised for cash, unless after the earlier of (i) the six (6) month anniversary of the date of the Purchase Agreement and (ii) the completion of the then-applicable holding period required by Rule 144, there is no effective Registration Statement registering shares issuable upon exercise of the Warrant, in which event JMJ may exercise the Warrant on a "cashless basis."

JMJ has the right to loan the Registrant up to \$1,000,000 more in multiple transactions on the same or better terms for a three year period following the date of this transaction.

The Registrant also entered into a Registration Rights Agreement (the "RR Agreement") with JMJ that provides that the Company is obligated to file a registration statement on Form S-1 to register for resale by JMJ 120,000,000 shares of Class A Common Stock, which is intended to cover all shares issuable upon conversion of the Note and upon exercise of the Warrant, as well as the shares issuable under a convertible promissory note dated June 4, 2012 payable to JMJ in the amount of \$315,000 and a warrant issued to JMJ to purchase 10,000,000 shares at \$0.03 per share. The Registrant is obligated to file the registration statement by August 15, 2012, and if it does not it will be subject to a penalty of \$50,000. The Registrant is obligated to obtain approval of the registration statement within 120 days of the date of the RR Agreement, and if it does not it will be subject to a penalty of \$75,000. The Registrant is barred from filing any other registration statement until the registration statement filed under RR Agreement is declared effective by the SEC, other than a registration statement on Form S-8; however, the Registrant is permitted to include 16,666,667 shares of Class A Common Stock issuable to Iliad Trading and Research, LP under a warrant issued on June 4, 2012.

The Registrant also entered into a Representations and Warranties Agreement (the "RW Agreement") with JMJ that contains standard representations and warranties regarding the Registrant's status as a reporting company under Section 13 of the Securities Exchange Act of 1934, the Registrant's capitalization, that the transactions contemplated by the Purchase Agreement are properly authorized and are legal and binding obligations on the Registrant, that the transactions do not contravene or violate any other agreements to which the Registrant is a party, that all necessary approvals have been obtained, that there has been no material adverse effect that has not been disclosed in its SEC filings, and that there is no litigation against the Registrant, among other representations and warranties.

The RW Agreement also provides that JMJ has the right to participate in any future financings in a matching amount of 100% of the proposed future financing for a period of twelve months after the date of the Purchase Agreement; provided that JMJ's right to participate in future financings shall not apply to any 7% two year convertible promissory notes issued by the Registrant. Furthermore, the RW Agreement provides that if the Registrant issues a security with more favorable terms, then the Note and Warrant will automatically be modified to include such more favorable terms. The types of terms contained in another security that may be more favorable to the holder of such security include, but are not limited to, terms addressing conversion discounts, conversion look-back periods, actual conversion price, stock issuance price, private placement stock sale price, interest rates, original issue discounts, and warrant coverage.

This discussion of the terms of the Purchase Agreement, the Note, the RW Agreement and the Warrant is a summary of such documents, and does not purport to discuss each and every term of such agreements.

Reference is made to the Purchase Agreement attached hereto as Exhibit 10.1, the RW Agreement attached hereto as Exhibit 10.2, the Note attached hereto as Exhibit 10.3, the default provisions attached hereto as Exhibit 10.4, the Warrant attached hereto as Exhibit 10.5, and the RR Agreement attached hereto as Exhibit 10.6 for the complete terms of such agreements.
